EXPERIENCE

Transamerica | Sr Distributed Developer

Mar '18 - Present

- Headed the FE for public sites. <https://www.transamerica.com/>
- Integrated Angular Elements with a static-page CMS, allowing our BE and FE teams to work in parallel on new features. Also, drastically reduced the workload for BE and improved the code-quality for FE.
- Worked with marketing/UX team to turn a paper brochure into an interactive website, within a tight 3-week deadline. <https://www.transamerica.com/8000days/>
- Implemented complex secondary-nav behavior, where users can scroll between sections on the page or click a link to do a quick fade-out/fade-in to their desired section. <https://www.transamerica.com/learning-center/>

Google | Web Developer

Dec '16 - Nov '17

- Worked on new interface for Google Adwords, primarily coding in AngularDart.
- Added infrastructure to trim unnecessary fields from mutate requests, resulting in a 15% decrease in latency.
- Brought to life complex [WYSIWYG](#) editor, allowing Adwords users to create new metrics for their ads.

[Raya App Inc](#) | iOS Developer

Oct '16 - Dec '16

- Created new interfaces from scratch, often working side-by-side with a designer to insure pixel-perfect look on all iOS devices.
- Helped meet ambitious 2 month deadline for launching new networking service.
- After contracting period, was offered full-time position as 5th engineer.

EDUCATION

Purdue | Computer Science

Aug '14 - Dec '15

- Curriculum highlights: C/Java programming, data structures & algorithms, computer architecture, calculus III, statistics.

App Academy | Coding Bootcamp

May '16 - Jul '16

- 1000-hour intensive full-stack web development course with < 3% acceptance rate. Emphasizes pair-programming and test-driven development.
